

Weatherization Technician - AIR

Company Overview

Anura Energy is an energy efficiency services provider that delivers a wide range of energy-saving solutions to meet the energy saving goals for our clients and customers. Our efforts include program design, project management, project fulfillment and data analysis. Our company strives to deliver value at every touch point with a team of enthusiastic and hardworking individuals.

Position Summary

The Weatherization Technician – AIR (Air Infiltration Reduction) works as a part of the weatherization team to install measures designed to improve the energy efficiency of buildings. The team performs services that reduce the air infiltration of a building, including the installation of home weatherization materials, performing minor building repairs, and associated record keeping. This position also requires a high level of quality customer service, integrity, and reliability.

Location

Office is in Naperville, Illinois. Job sites are in the greater Chicago suburbs and northern Illinois counties.

Position Responsibilities

- Install weatherization measures in attics and crawlspaces such as:
 - Caulking/Air Sealing
 - Baffle installation
 - Blocking bypasses
 - Duct insulation
 - Attic venting
 - Insulation damming
- Conduct work in compliance with OSHA and Anura Energy safety procedures.
- Use hand tools or power tools in a safe manner when installing materials and repairing structures.
- Use natural problem-solving skills and collaborate as a team to make proper decisions in the field.
- Work independently on assigned tasks and represent the company in a professional manner.

Position Qualifications

- Must be comfortable with tight, enclosed areas, and have good, steady balance.
- Attention to detail and a mindset for doing a great job is a must.
- Familiarity with hand and power tools and a desire to learn weatherization techniques.
- Basic knowledge of the construction of residential dwellings and housing types preferred.
- Punctual, reliable, trustworthy, and able to manage time effectively.
- Anura Energy welcomes new graduates with degrees in Building Science, Environmental Sustainability, or other related fields to apply.

Full time and part time hours - typical schedule is weekdays 7:00am to 4:00pm.

Starting pay is \$18/hour depending on experience.

Opportunities for professional growth, overtime and performance pay.

Drug and smoke free environment. Must be able to pass background check.

Clean driving record is required to drive company vehicles.
